## PROFESSIONAL SUMMARY

Web Developer with over 1 year of experience building modern and responsive user interfaces. Delivers efficient UI/UX solutions focused on performance and client needs. Eager to grow in a collaborative and innovative environment.

## PROFESSIONAL EXPERIENCE

### Web Developer – E-ProDesign (August 2024 – Present)

- Managed and maintained a large portfolio of websites
- Built websites from scratch, customized to client requirements
- Optimized performance: loading speed, on-page SEO, accessibility
- Accurately implemented client ideas and requirements in the UI
- Created innovative UI designs and collaborated effectively with the team

### Warrant Officer – Ministry of National Defense (August 2021 – August 2024)

- Operated and maintained naval navigation systems and electronic equipment
- Worked in structured teams under strict protocols, reinforcing collaboration, discipline, and operational precision
- Handled classified information and followed strict access control and data confidentiality procedures
- Used Microsoft Office Suite (Excel, PowerPoint, Power BI) for logistical planning, reporting, and resource coordination

## KEY ACHIEVEMENTS

- E-ProDesign Company Portfolio – actively contributed to dozens of real-world projects by building websites that matched client expectations and followed project planning. Provided technical recommendations to improve user experience and implementation.
- Responsible for maintaining and administering 20+ websites, ensuring daily communication with clients for updates, security enhancements, and feature requests. Tasks include log monitoring, performance checks, applying security patches, and resolving issues through live or phone support.
- Work is managed through a ticketing system with task prioritization based on project workflows. Consistently meets deadlines by following structured processes, clear task delegation, and collaborative team execution.

## TECHNICAL SKILLS

- Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
- Backend & CMS:** PHP, WordPress, MySQL, Node.js
- Tools & Platforms:** Git, GitHub, cPanel, RESTful APIs

## EDUCATION

- Naval Forces Military School** – Maritime Navigation (2021–2023)
- Ion Ghica Economic College, Brăila** – Trade Activities (2011–2015)

## LANGUAGES

- English – Professional working proficiency
- Romanian – Native
